

Law & Business in Europe

Turin International Post-graduate Programme

"Corporate Strategies and Global Economic Crisis. EU Business Opportunities"

AUTUMN SCHOOL

Turin 9-20 November 2009

The two-week Autumn School combines European law, international business and advanced management, to confront with global issues that involve both legal and economic aspects. The Course considers the impact of EU law on enterprises in the current global economy, and its interaction with other business operations.

The Autumn School is tailored for young graduates and professionals from around the world, dealing with legal and management questions in connection with changing demands of the European business world.

The training approach includes frontal lectures, practical cases presented by experts and a workshop whose results will be presented during the final conference.

The project benefits from the scientific and organising support of the Turin Chamber of Commerce and the International University College of Turin and is organised under the auspices of the University of Turin, the University of Fribourg (Switzerland), the Carlo Cattaneo University, the Universidad de Lima, the European Training Foundation and the European Policy Centre.

Deadline for applying: 25 September 2009
